

## Climbable

- Built in handle with yellow marked warning, for rapid recognition of the climbing handle onsite.
- Lightweight design, single person install and dismantle.

## OneType LED Module

Led modules fit panel sizes of 500mm x 500mm & 500mm x 1000mm.

## Thin & Light

Light weight structure design, while ensuring the structural strength, could also reducing the customer's huge transportation costs at the same time.

Magnetic waterproof module,  
with screwless design, fast  
and convenient maintenance.

## Module Protection

The sloping bottom of cabinet is for protection of led lamps, avoiding collision to mask and plastic chassis and for cabinet stable standing.

## Convex & Concave 10°

With same locking system, both flat and curve installation can be fitted different types of installation requirements.

## Modular PDU Design

Easier replacement, better heat sinking, sloping socket design.

Using custom connectors, to ensure the safety of high-current transmission and signal transmission stability, which is completely different from the traditional row pin and female connector.
